

Knowing not to know

© Torsten Engelmann 2017

GEMA-Werknummer: 19413194

Life was easy. Life was always fun.
When others crept he was on the run.
While millions quarreled with their fate
he preferred to take a break.
Tried not to take things too serious.
Grief seemed to him mysterious.

But nowadays easiness has flown away.

**So many things are on his mind.
Things he once had left behind.
He longs for one to show him where to go.
Too often he just sits and waits.
Too often he just hesitates.
The only thing he knows is not to know.**

Much too long he'd leached on what he knew.
To sort things out, make changes was taboo.
Holding on to good old stuff
was easy and seemed to be enough.
Although imaginations of what could be
were tempting and let him feel free.

But was he really well-prepared? was what made him gravely scared.

So many things ...

Every change always means to release.
And sometimes appears a feeling of unease.
So many open-ended questions.
Maybe much less security.
So many well-intentioned suggestions.
An unknown new proximity.
Questions like: 'Am I too selfish?
I wish I simply wouldn't care.'
Consideration is a virtue.
But sometimes it's absurd.

So many things ...

Life was easy. Life was always fun.
Take your chance to be one day the lucky one ...
